DETAILED ACTION

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Claim Objections

1. Claims 9-23 are objected to because of the following informalities:

Claim 9: the phrase "said particular script selectable with said control section" should be changed to "said particular script selected by said control section" for consistency.

Claim 10: the phrase "to display said data obtained by any one of said particular scripts" should be changed to "to display said data obtained by executing any one of said particular scripts" for consistency.

Claim 18: the examiner believes that the applicant has tried to claim a software product for performing the method as recited in claim. In that case, the preamble of the claim should be changed to "A computer program product that causes a computer included in an electronic device having a storage in which a device identifier that identifies a type of said electronic device is stored to execute a method comprising the steps of:" for clearly defining the claimed subject matters.

Claims 19-23: the phrase "The method of claim" should be changed to "The computer program product of claim" for consistency.

Claim 23: the phrase "comprising a communication unit transmitting said content to a vehicle navigation device" should be changed to "comprising transmitting said

content from a communication unit of said electronic device to a vehicle navigation device" for consistency.

Allowable Subject Matter

2. Claims 9-23 would be allowable if rewritten or amended to overcome the objection(s), set forth in this Office action.

The following is a statement of reasons for the indication of allowable subject matter:

The applicant's response (See Remark, page 3 third paragraph to page 4) filed on 10/18/2007, clearly states the inventive steps of the instant application.
